

# Podiatric reference

*As a podiatrist,  
several parents ask me which slippers would be best for their toddlers.  
I personally recommend **Bébé Ô Chaud** products.*

## SLIPPERS ARE LIGHT, WHICH IS VERY IMPORTANT FOR TODDLERS.

Toddlers are small, so slippers should be light! Some slippers are so heavy that they can cause injury to babies and children.

## NO DETACHABLE PLASTIC MATERIAL OR RUBBER THAT CAN CREATE A CHOKING HAZARD.

Unlike some slippers on the market, Bébé Ô Chaud slippers don't have decorative features that babies can pull out and put in their mouths.

## THE SLIPPERS ARE VERY SOFT INSIDE, TO STIMULATE TODDLER'S SENSORY CAPACITIES.

This soft material and design are why Bébé Ô Chaud slippers are ideal for your toddler.

## NO SUPERFLUOUS MATERIALS, SUCH AS ZIPPERS, TO IRRITATE BABY'S FEET.

Toddlers spend a lot of time on the floor, so their slippers must be as comfy as possible! This is where the simplicity of Bébé Ô Chaud slippers is an advantage.

## THE ELASTIC AND VELCRO ARE POSITIONED TO KEEP THEM ON YOUR TODDLER'S FEET WITHOUT HURTING THEM..

Everyone knows how easy it is to lose a slipper! Most slippers don't properly fit babies and children. This isn't a problem for Bébé Ô Chaud slippers—the elastic and Velcro are positioned to make sure they stay put.

## PLENTY OF ROOM FOR BABIES TO MOVE THEIR TOES, ESSENTIAL TO MOTOR DEVELOPMENT

At Bébé Ô Chaud, they know how important it is for babies to move their toes and explore movement.

## BÉBÉ Ô CHAUD SLIPPERS: LOGIC AND SIMPLICITY

The design of Bébé Ô Chaud slippers makes them one of the best slippers on the market. The owner of the company created them with practicality and comfort in mind!
